

Antaira Launches First New IEEE 802.3bt Gigabit Type 3 4PPoE Injector

BREA, CA – June 3, 2019 – Antaira Technologies is a global leading developer and manufacturer of industrial networking devices and communication solutions for harsh environment applications and is proud to announce the expansion of its industrial networking infrastructure family with the introduction of the **INJ-0200G-60-24-T**.

Antaira Technologies' INJ-0200G-60-24-T is an industrial high-power IEEE 802.3bt Type 3 Power over Ethernet (PoE) injector backwards compatible with previous IEEE 802.3af/at standards. By utilizing multiple pairs of pins on the RJ45 cable, this industrial grade PoE injector is capable of providing up to 60 Watts of power to end devices. Each port supports 10/100/1000Tx for both power in and data out.

The **INJ-0200G-60-24-T** is IP30 rated, DIN-rail mountable, and supports an extended temperature of -40°C to 75°C, making it ideal for outdoor or harsh industrial applications.

For more details about Antaira Technologies' industrial PoE injector, please feel free to visit www.antaira.com; or contact Antaira Technologies toll-free at 1-844-268-2472.

About Antaira Technologies

Antaira Technologies is a global leading developer and supplier that provides high-quality industrial networking and communication product solutions. Since 2005, Antaira has offered a full spectrum of product lines that feature reliable Ethernet infrastructures, extended temperature tolerance, and rugged enclosure designs. Our product lines range from industrial Ethernet switches, industrial wireless devices, Ethernet media converters, and serial communication devices. Our vast professional experience allows us to deploy a wide array of products worldwide in mission-critical applications across various markets, such as, automation, transportation, security, oil & gas, power / utility, and medical.
