PRODUCT NOTICE

Dear Valued Customers,

Antaira Technologies® continues to strive towards its ambitious environmental sustainability goals by announcing that it is transitioning to 100% molded-pulp packaging. The new eco-friendly packaging is made from post-consumer recycled paper and is biodegradable, compostable and recyclable. The new molded-pulp packaging is a more sustainable alternative to traditional packaging materials such as Expanded Polyethylene (EPE) packaging like foam or plastic.

Starting with recycled papers and corrugated boxes, molded pulp is formed into space-efficient, lightweight, and shock-absorbent packaging, providing ample protection during shipping. According to a study by the Swedish Environmental Research Institute (IVL), **using molded-pulp packaging has been shown to have a significantly lower carbon footprint than traditional polystyrene packaging, with up to 80% lower emissions.**

This Product Notice is to inform you that molded-pulp packaging will start being used on **February 01, 2024** once the existing stock has been depleted. Antaira is committed to reducing its carbon footprint and contributing to a greener future.

EPE Packaging

Molded Pulp Packaging

The molded pulp packaging will be used for the following products:

Box Dimensions	Model
54 x 142 x 99	LMP-0501-xx series
	LMP-0600-xx series
	LMP-0601G-SFP(-24)(-T)-V2
	LMP-0602-xx series
	LMP-0602G-SFP(-24)(-T)-V2
	LMP-0702G-SFP(-bt)(-24)(-T)-V2
	LMP-0800G(-24)(-T)
	LMP-0802-xx series
	LMP-0802G-SFP(-24)(-T)
	LMP-0804G-SFP(-24)(-T)
